

A close-up photograph of a purple flower, likely a pansy or similar, with many petals and a visible center. The petals are a deep purple color with some lighter, almost white, variegation. The center of the flower is a darker purple with some yellow and green stamens. The background is a soft, out-of-focus green, suggesting foliage.

Acts 16:03 Him would Paul have to
go forth with him; and took and
circumcised him because of the
Jews which were in those quarters:
for they knew all that his father
was a Greek.
