

A decorative waterfall display featuring a central stream of water cascading over several layers of reddish-brown and grey rocks. The water is clear and glistening. The base of the waterfall is surrounded by numerous smooth, rounded stones in various shades of brown, tan, and grey. Small, vibrant green plants with tiny leaves are scattered throughout the scene, particularly along the edges of the rocks and in the water. The overall appearance is that of a miniature, naturalistic water feature.

**Genesis 13:05 And Lot also, which
went with Abram, had flocks, and
herds, and tents.**
