

A close-up photograph of a field of cornflowers (bluebottle) flowers. The flowers are a vibrant blue color, arranged in small clusters along green, slightly fuzzy stems. Some flowers are fully bloomed, showing their characteristic five-petaled structure, while others are still in bud form. The background is filled with more of these flowers, creating a dense, textured pattern.

hath purposed it, to stain the
pride of all glory, and to bring into
contempt all the honourable of
the earth.
